EDITORIAL

(by Alan Borwell)

News Bulletin No. 25/26 December 1987

Welcome to our Silver Jubilee edition - I hope members will like its new style! One of the penalties is that I will have to be brief to enable the Secretarial Notes to be printed in full. I would just like to say a special "thank you" to my wife Moira, who has helped me to produce every edition of the News Bulletin since its inception in January 1980.

SECRETARIAL NOTES (by Alan Hind)

Our new season has just started and we welcome all those new to our Association and hope they enjoy our tournaments.

The Controllers are, of course, the first point of contact for all competitors and I take this opportunity to mention a few basic rules (which some existing members would do well to follow!) :

- . The Controller and all opponents should be notified before any leave is taken.
- If withdrawal is by force of circumstances necessary, it should not be a "silent" withdrawal. It is only common courtesy to inform all relevant parties.
- All results should be forwarded to the Controller as soon as possible, complete with scorecard or score of game even in the event of a withdrawal.

I would also like to emphasise two important rule changes:

- 1. Individual postcards are compulsory in the Championship and recommended in the other tournaments.
- 2. Notation is now preferably algebraic but can be descriptive by mutual agreement. If no agreement can be reached, international numeric must be used.

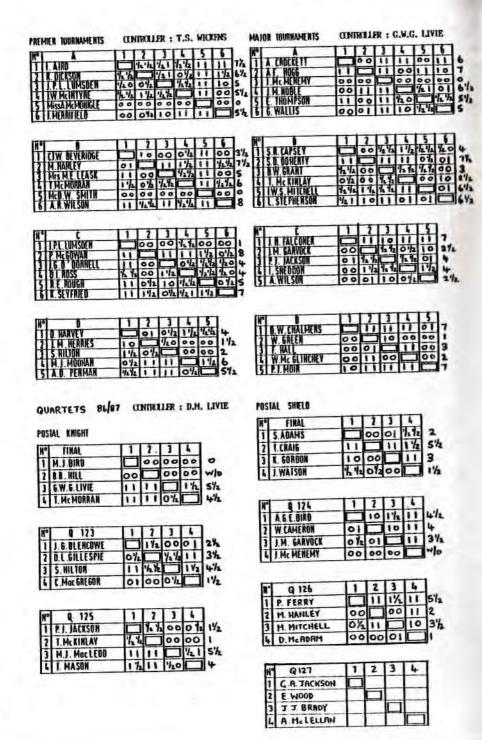

If you follow the above, I hope that you'll find it makes for an incident-free season and enjoyable games!.

HANDICAP TOURNAMENT (by Allan Hislop)

Five prizes in the Handicap this season have been won by:

P. McGowan, P.J. Jackson, K. McKenzie, J. Watson and A. Swann.

The following promotions took place:

- A. Swann, G. Wallwork and A. Wilson to Class One
- P.J. Jackson to Class Two
- K. McKenzie to Class Three
- W. McGlinchey and J. Watson to Class Four
- J. Kelly and P. McGowan to Class Five

Congratulations to the prizewinners and to those promoted.

I should like to remind players in the Handicap that they must play at least eight games and at least three opponents in a season to be eligible for a prize.

SCOTTISH CCA LEAGUE 1986/87 Controller: Ken Gordon

Chess Suppliers "A" regained the Championship ahead of holders, The Establishment. They both finished well ahead of the field, who battled for the relegation places, with Falkirk RSVP and Perth Correspondents making the drop! The powerful Streatham & Brixton line-up duly clinched Division 2 ahead of Kirkcaldy, who regain Division 1 status. In Division 3, Crowwood were the winners, with a tie for second between Black Knight and Paisley (YMCA). Irvine and Chess Suppliers "C" will advance from Division 4, with Castlehill and The Endgame the promoted teams from Division 5,

SCOTTISH CENTENARY INTERNATIONAL TOURNAMENT

With only 12 games to be completed, an exciting finish is in prospect with 6 players still in contention for first place. Henrik Sørensen (DK) has concluded his games with an excellent 9 pts, only half a point short of the GM title—we send him our congratulations and commiserations.

His score has already been exceeded by Douglas Bryson who has 9½ pts (1), with "expectations" from his remaining game against Prof. Dr. W. Sagorowski (SU), who currently has 5 (5). Both Simon Webb 8½ (2) and Nigel Povah 7½ (2) from England, Eero Hintikka (Fin) 9 (2) and Volker Anton (DDR) 9½ (1) can reach or exceed Douglas's current score.

Congratulations to Karl Strand (Nor) who completed his remaining game and reached the 7 pts norm for his IN title, which was duly awarded in Bloemendaal.

A Tournament Book is being written by Alan Borwell and John Hawkes to commemorate Scotland's first international correspondence event, which began in the Scottish Chess Centenary Year (1984). It is expected that the event will be finished during 1988, with the book being available early in 1989.

ICCF CONGRESS 1987 - NETHERLANDS (by Alan Borwell)

The 1987 ICCF Congress was held in Bloemendaal, which is the garden suburb of Haarlem, about 20 miles from Amsterdam. George Livie and I attended the meetings during the period 5th to 13th September 1987 and this report covers the main issues discussed and those matters which had a Scottish interest.

The Nederlandse Bond van Correspondentieschakers (NBC) organised the Congress and also a day trip to the Zaanse Schans. We went through a series of locks and canals to an area famous for its windmills and local craft centres, including clog and cheese making.

Representatives from the following countries attended the Congress: Argentina, Belgium, Canada, Cuba, Denmark, England, Finland, France, East Germany, West Germany, Hungary, Israel, Italy, Netherlands, Norway, Poland, Rumania, Scotland, Singapore, Sweden, Switzerland, USA, and USSR, with a total of 46 delegates at the meetings.

At the Opening of the Congress, ICCF President Hans Werner von Massow (BRD) welcomed the record number of delegates and thanked the NBC, its President Leo Diepstraten and ICCF Vice-President, Henk J. Mostert, for organising this year's event. This was the fourth occasion that ICCF meetings had been held in the Netherlands (previously in 1956 and 1959 in Amsterdam, and 1972 in Arnhem). The President then referred to many famous Netherlands chess officials, going back to the first international correspondence chess tournament organised in 1928 by Dr. Werestschagin.

The idea of a World Correspondence Chess Championship had first been suggested by Dr. Aljechin in 1937 and Dr. A. Rueb of the Wetherlands was very much involved in the development of international correspondence chess just before the 2nd World War. Herr von massow referred to the work and friendship of Dr. Euwe, World Champion and President of FIDE, and also Ms. Ineke Bakker, who was FIDE General Secretary for many years.

Although relationships with FIDE had deteriorated in more recent times, particularly by its "unfriendly gesture" in not supporting the ICCF request for membership of UNESCO, it was reported that the FIDE President, F. Compomanes had now written to UNESCO, supporting ICCF's application.

The President then asked the delegates to stand in silence to the memory of five very important World Correspondence Chess friends who had died during the last year:-

- Jean Louis Ormond (Switzerland) ICCF President 1951-53
- Dr. Armando Silli (Italy)
 Founder of the Italian Federation, ASIGC
- Dr. Jakob Estrin (Soviet Union)
 7th World Correspondence Chess Champion 1972-76
- Hans-Joachim Heitmann (BRD)
 ICCF Arbiter and West German Chess Organiser
- Karl-Heinz Boese (BRD)
 Controller of World CC Championships since 1965

Herr von Massow concluded by referring back to the 1985 Congress held in Peebles when he announced that he would retire from the ICCF Presidency in 1987, after almost 30 years in office. His nomination for his successor in Peebles had been Henk J. Mostert of the Netherlands and he was very pleased that there was only one nomination — he also referred to the ICCF motto adopted in Scotland of "Amici sumus".

In the Report of the General Secretary, Henk Mostert reported that a proposal had been received from Sweden for Honorary Membership to be accorded to ICCF Auditor, Harry Ahman. This was proposed by the President and supported with acclamation by all delegates. The General Secretary had received an application for ICCF membership from Andorra and this was agreed - the 63rd member country.

Gold and silver Bertl von Massow medals were then presented to officials who had given 15 years and 10 years meritorious service to ICCF as follows:

Gold Medals

P.E. Ekblom (SF), S. Kania (PL), E. Muutilainen (SF), R. Wikman (SF) and E. Winkler (DDR)

Silver Medals

R. Berthelsen (N), H. Brusila (SF), J. Bodis (F),

Dr. T. Bullockus (US), P.E. Ekblom (SF),

R. Feytens (NL), N. Jungreiss (ISR),

T. Peretjatkowicz (PL), G.C. van Perlo (NL) and

A. A. van't Riet (NL).

Then followed the reports of the World, European and Thematic Tournament Directors. The main points arising were:

- The ICCF World Cup III had been won by W. Rabinowitsch (SU)
- The Final of World Cup V was commencing with 11 qualifiers.
- 3604 players had entered World Cup VI/VII (in memorian Bertl von Massow), being organised by the Polish Federation.
- The 2nd European Team Tournament Final and 3rd European TT Preliminaries would be terminated on 30.12.87.
- The 3rd European TT Final and 4th European TT Preliminaries would be announced in March 1988, with a closing date of 30.6.88. Groups to be decided at the ICCF Praesidium in Denmark in August 1988, with start date of 15.10.88 or 1.11.88.
- The 1st Ladies European Championships began in June 1987 with 50 players from 15 countries playing in 5 groups. The top three in each group will play in the Final. (Scotland's representative is Rosie Giulian)

There were reports from the Tournament Bureaux from English-America. Anglo Pacific and Latin America. The report of the ICCF Liaison Officer to FIDE was largely concerned with discussions with FIDE on the UNESCO issue.

In my report as ICCF Treasurer, I presented audited accounts for the year 1986 and included a number of new proposals for the future. It was agreed by Congress to fix a maximum membership fee per country of Sw.Fr. 3000, and also to obtain fees for invitation events approved by ICCF, at 5 sw.fr. per player, not to exceed a total of 25 sw.fr. for team events - both from 1.1.88.

The Auditor's report commented favourably on the accounts presented and Mr. Ahman proposed the adoption of the accounts for 1985 and 1986 (only the 2-yearly Congresses approve ICCF accounts).

In the report of the Telechess Committee, it was indicated that a 3rd Telechess Olympiad had attracted positive interest from 7 countries so far, including Scotland.

The report of the Qualifications Committee contained the following main points of interest:

- The title of Ladies GM will be considered when there are 200 ladies in the ICCF rating list.
- Tournament title norms were approved for various invitation events being organised by member countries.
- The draw was made for the 3/4 Final of XIV World There will be 3 groups each with 15 Championship. players.
- The Semifinals of the XVII World Championship would begin shortly with 7 groups, probably each of 15 Scotland's nomination for this event is players. Alan Norris.

There were 4 new GMs, 19 new IMs and 6 new Arbiters, as follows:

Grandmaster: V. M. Anton (DDR), O. Ekebjaerg (DK) H. Handel (DDR), H. Heemsoth (BRD)

International Waster:

G. Ballon (NL), B. Bieluczyk (PL), R. Fagerström (S), F. Finocchiaro (I) A.A. Idema (NL), A.G. Iwanow (SU) H. Keller (BRD), A. Laurencena (AR), V. Maes (B), J. Marcinkiewicz (PL), R. Dechslein (BRD).

A. Preinfalk (YU), L. Radulow (BG), L. Rubinschik (SU), M.N. Sher (SU),

D.L. Stoll (CA), K.W. Strand (N),

R. Wikman (SF)

Arbiter: D. R. Adamson (US).

M. Müller-Töpler (BRD), L.L. Yance Ramirez (CU)

A. Rott (SU)

H. W. van Lieshout (NL)

A. A. van't Riet (NL)

There was a brief report from the Documentation Committee about progress with the ICCF Handbook and the new ICCF Rating List was adopted, containing the following names and ratings at 31.12.86:

Ladies ratings

Mrs. E A Hartford 1950

One or two points to note are:

- Players with 20 recorded results will have ratings published (if over 2000), but require at least 30 results in the system to have "secured ratings".
- From 1.1.90, National Championships will only qualify for ICCF rating if at least 25% of players appear on the current ICCF rating list.
- Results for substitute players in team events are only valid for games which had not progressed beyond move 10 at the time of replacement.

Special tournaments will be arranged by ICCF in 1988 for players with % IM norms. They will be sections of 11 players and countries will also be able to nominate other players, providing that they have a secured rating of at least 2400. Participants will be competing for title norms, but winners will also be eligible for next World Semifinals. (Currently Scotland has 4 players with % IM norms, namely Ken McAlpine, Alan Norris, Graham Morrison and Tim Wickens).

The objective is for the necessary changes to be made to enable the new system for ICCF Rating and Title norms to be implemented from 1.1.89 and the 1988 ICCF Praesidium was given a proxy to approve, if appropriate, in Denmark next August.

To facilitate this process, it was necessary for joint meetings to be held between the Rules and Qualifications Committees and various important rule changes were agreed. A special article on these will be included in a future edition of the News Bulletin.

Under Tournament Arrangements there was great interest in the draw for Final X and Preliminaries XI for the next Olympiad. The winners of Final IX were the team competing as Great Britain - a really outstanding result and our congratulations go to the six English players, namely: Dr. Jonathan Penrose, Dr. Adrian Hollis, Simon Webb, John Footner, John Toothill and Chris Shephard.

Runners up were BR Deutschland, with Soviet Union in 3rd place.

It was agreed that, as one of the top three countries which automatically qualify for the next Olympiad Final, the team representing BPCF could compete as England.

The draw for Final X was then made as follows:

| 1 | Italy | 6 | Finland |
|---|------------|----|---------------|
| 2 | GB/England | 7 | Czechoslovaki |
| 3 | USSR | 8 | DDR |
| 4 | Poland | 9 | Netherlands |
| 5 | Norway | 10 | BRD |

a

The XI Preliminaries were arranged into 4 groupings:

| | Group 1 | Group 2 | Group 3 | Group 4 |
|----|-------------|----------------|------------|-------------|
| 1 | England | Czechoslovakia | DDR | USSR |
| 2 | Peru | Belgium | Austria | Italy |
| 3 | Andorra | Singapore | Luxembourg | Nicaragua |
| 4 | Panama | Argentina | Iceland | Rumania |
| 5 | Greece | Portugal | Bulgaria | Cuba |
| 6 | USA | Finland | Denmark | Switzerland |
| 7 | France | Brazil | Algeria | Ireland |
| 8 | Israel | Norway | BRD | Spain |
| 9 | Yugoslavia | Scotland | Canada | Sweden |
| 10 | Netherlands | Hungary | Wales | Poland |
| 11 | Australia | - | | |

Scotland is one of the top rated teams in Group 2 - two teams from each group qualify for XI Final.

The election of office-bearers for ICCF takes place every four years and the new officials appointed at the Bloemendaal Congress were for the period 1.1.88 to 31.12.91. The new President, elected unanimously, will be Henk J. Mostert (Netherlands), relinquishing his previously held office of General Secretary. In view of the tremendous service which Hans-Verner von Massow has given to ICCF and correspondence chess for over 60 years, it was decided to appoint him as ICCF's first Honorary President. This was warmly acclaimed by all delegates and friends at the Congress.

After many kind words had been expressed both for and by the new President and Honorary President, the other members of the ICCF Praesidium were appointed:

General Secretary: Ing. Paul Diaconescu (R)

Vice Presidents: J.F. Cleeve (CAN), F. Brglez (YU)

H. Rittner (DDR),

Prof Dr W. Sagorowsky (SU), E. Larsson (S), C.G. Dieta (RA),

R. Lindroos (SF), Dr J. Vandorffy (H)

Treasurer: A.P. Borwell (GBS)

Tournament Director: R. Wikman (SF)

Liaison Office to FIDE: S. Kania (PL)

Auditor: H. Ahman

The next ICCF Praesidium was agreed for Aarhüs, Denmark from 20-28th August 1988. Italy had withdrawn from hosting the 1989 Congress and negotiations were continuing with possible alternatives. The Praesidium in 1990 would be in DDR, and invitations for Congresses for 1991 Finland and 1993 Poland were also accepted.

With words of thanks to the Federation of Netherlands (NBC) and particularly to Messrs. L C M Diepstraten and H.J. Mostert, the President closed the 1987 Congress in Bloemendaal emphasising the ICCF motto "Amici sumus" ("We are friends").

Regrettably, once again, it was not possible to produce a full English version of the Minutes in Bloemendaal, but I hope the above report is sufficient for our members.

BOOK REVIEWS

LONDON-LEWINGRAD CHAMPIONSHIP GAMES by Garry Kasparov

Published by Pergamon Press, translated by Kenneth Neat Algebraic notation, paperback, £9.95

This is a translation of the World Champion's account of his 24-game match against Anatoly Karpov in 1986. Garry Kasparov's notes and observations are profound. When the English organisers awarded both players the "best games" prize for game 11 from the first 12 games, Karpov compared it with the "Statue of Venus". Kasparov considered that the quality of play by both players left something to be desired and observed that "if one supposes that for each mistake an arm was cut off the wonderful statue, then it would be more appropriate to put in its place the multi-arm Hindu God, Siva....!"

The book provides a fascinating insight into the mind of a truly remarkable young man, who has not only great talent as a chess player, but also has an ability to express himself so freely as a human being.

COMPREHENSIVE CHESS ENDINGS (Volume 5 - Rook Endings) by Yuri Averbakh & Wikolai Kopayev

Published by Pergamon Press, translated by Kenneth Neat Algebraic notation, paperback, £14.50

Dedicated to rook endings, this is the final volume of a superb five-part series. With an excellent blend of diagrams and text, the authors present a clear analysis of many intriguing rook endings.

To many players, the attraction of chess is in tactical play in the openings and middlegame. However, a systematic study of this book will reveal the infinite possibilities of positions with minimal material. Rook endings are to chess as piano sonatas are to music!

PLAY THE CATALAN - VOLUME 1 - OPEN VARIATION by lakov Weishtadt

Published by Pergamon Press, translated by Kenneth Neat Algebraic notation, paperback, £12.50

The opening moves 1 d4 Nf6 2 c4 e6 3 g3 provide the basis for this series. The first volume deals with the continuation 3 ... d5 4 Bg2 dxc4, described as the "Open Variation". The Catalan Opening received its name from a tournament in Barcelona, the capital of Catalonia. Its main feature is White's early fianchetto to hinder Black's Q-side development.

This 244-page book is "neatly" presented with a sufficiency of diagrams, analysis and games references. The indexing is rather cumbersome (eg. 6.11222!) but it is logical. An Appendix includes "Recent Developments" which would have been easier to follow if they had been incorporated into the appropriate sections of the book.

A book for players of this "specialist opening" or for those who find it difficult to play against Queens Indian or Nimzo Indian Defences!

THE COMPLETE CHESS ADDICT by Mike Fox & Richard James

Published by Faber and Faber, Algebraic notation, paperback, £5.95

This book is the ideal Christmas present for the less serious chess player and also for anyone who takes the game too seriously! The 264 pages are packed with useful and useless information about chess and chess players, eg. Why did a dog play for Brighton third team?! Amongst the many anecdotes about the famous, ranging from Aladdin to Zatopek, you will find the sixty greatest chess games ever played.

An original, entertaining and well-presented book, which is very reasonably priced, with something for everyone, even though there are virtually no references to chess played in the oldest chess country in the British Isles! Douglas Bryson continues his "exploits" in the following events:

1985-7 SCOTTISH CHAMPIONSHIP (by Philip Giulian)

The Championship started with a warm favourite in Tim Wickens, Like a seemingly increasing number of correspondence players, Tim does not play "over-the board" chess, yet this does not seem to diminish the strength of his play. Already with an International Master 16 norm, Tim is hoping to gain the full title soon in the European Team Championship. In grading terms, his lead over his competitors meant that a score of 9%/10 was needed just to maintain his grading.

The most likely challenger was Alan McGowan, a relative newcomer to correspondence play. Despite his inexperience, Alan had played at a very high standard and his few correspondence games had given him a provisional rating of 2325. The only other competitor with a grading of over 2000 was Brian Martin at 2070. Brian is a rapidly improving player but the gap between him and Tim Wickens suggested that Brian was unlikely to upset the favourite. The remaining players were of approximately the same grading strength, with the exception of Douglas Livie who was about 100 points behind.

As expected, Tim Wickens was soon producing the wins. He was quite ruthless in many of his games but he had a considerable slice of luck in his game with Ian Thompson. At a crucial stage, Ian took a cessation of play and then resigned all his remaining games. At the time Tim held the advantage, but had Ian managed to hold on, then Tim would only have shared the title instead of winning it outright. (Editor - The full crosstable of results is on page 2).

Tim is a worthy champion as can be seen from the following games. The notes for the first are by Tim himself.

A set-up that used to be favoured by Botvinnik. 5 e4 shuts in the white squared bishop but it cramps Black's development and stakes a strong claim to the centre.

White goes for the immediate attack with the idea of c5. However, by omitting a4, it is easier for Black to undermine the White pawn chain.

With all these pawns on white squares, the bishop may be needed elsewhere. Better is 13 a4 or 13 Be3.

Runner-up was Brian Martin who was playing perhaps the best chess of his career. As already mentioned, he was a little unlucky not to tie for the championship, but as it was he conceded only three draws. In the following two games, Brian rapidly disposes of two players whose over-theboard gradings are considerably higher than his. Notes are by Brian.

Spassky has been playing this in recent games.

I expected 7 Be2 when I intended following the Chandler-Spassky, London 1984 game: ... Ba7 8 dxe5 Nxe4 9 Bd3 Qh4 10 Qf3 d5 11 exd6 Nxd6 12 Re1+ Be6 13 g3 Qh3 14 Nc3 0-0-0 15 Bf4 draw.

However, what about 7 Ba4!? which was Plaskett-Donchev, Plovdiv 1984? That continued 7 ... Nxe4 (7... Bd6 8 f4!) 8 Qe2! Be7 9 Qxe4 Ng6 10 f4±. But surely 9 ... Ng6 is just asking for trouble after White's f4.The knight can move elsewhere, I feel, and Black may be alright?

7 axb5 8 exf6 Qxf6 9 Kh1?! So that he can advance the f- pawn, which is pinned at the moment, but neglecting his queenside development.

Ady-Spassky, London, 1984 went 9 Nc3 c6 10 Qh5 (10 e5 Qf5!, Psakhis-Spassky, Solingen, 1984) 10 ... d6 11 Bg5 Qg6 12 Qh4 h6 13 Bf4 b4. giving Black some initiative

9 d6 10 Qe2

I expected either 10 Nc3 or 10 f4. After the knight move. I'd have played 10 ... c6 11 f4 (1f 11 Qh5 then Qg6 or if 11 Bd2 Be6) 11 ... Be6 and now if 12 f5 Bc4 13 Rf3 b4 14 Ne2 0-0. After 10 f4, I'd again have played ... Be6 and if (a) 11 f5 Bc4 12 Rf3 b4!; (b) 11 Qh5 Bc4 or even ... Rxa2; (c) 11 Rf3 Rxa2.

A NEW SCCA RATING SYSTEM PART 1

(by Graham Wood)

The last few years have seen the SCCA make the transition to the BLO representation of grades. Despite this, however, these grades have still been derived by use of the old British Chess Federation system and then converted into BLO. The nature of the BCF system has contributed to the occurrence of some anomalies, as evidenced by several indignant letters from perplexed members in the files! I will summarise here the BCF system in the hope that if the members concerned study the workings of that system, at least some of their queries may be answered. Thus:

- 1 grades are calculated using the old BCF system and converted into ELO: ELO=(BCFx8)+600 or BCF=(ELO-600)/8
- 2 for a win, score opponent's grade +50; a draw, score opponent's grade; a loss, score opponent's grade -50
- 3 at the end of the "season", the player's total score is added up and divided by the number of games played
- 4 if the total number of games in a season is less than twenty, then an average of the games from the previous season(s) is used to bring the total up to twenty
- 5 if a player plays an opponent whose grade is more than 40 from his own, then the opponent is treated as if his grade differed by exactly 40, for the purpose of grading the player.

Grading issues have been discussed at length by the Executive Committee on a number of occasions. It was agreed (on 2nd November 1986) that a sub-committee comprising A.J. NcClelland (Chairman), C.R. Beecham, P. Giulian and D.M. Livie, would consider the grading system, identify inaccuracies and submit recommendations.

The findings of this sub-committee were presented at a meeting held on 17th May 1987. In brief, amendments to the SCCA Master title qualifications were proposed, together with recommendations that future gradings should be compatible with those of the Scottish Chess Association (to enable utilisation of the SCA computerised system), should use ICCF player gradings where such exist, and that a form should be drafted to enable results to be reported to the grading officer consistently.

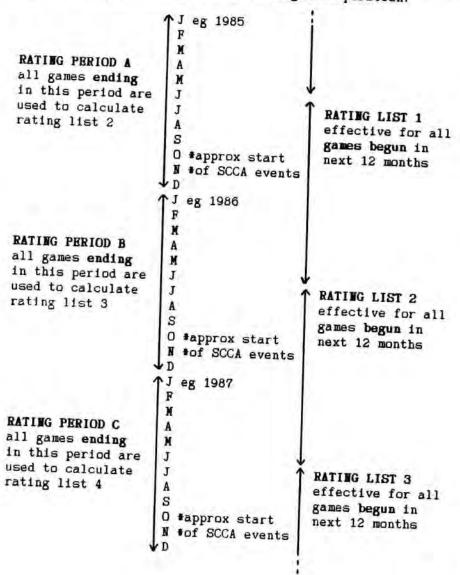

My first task as the new Grading Officer was clear therefore: I had to examine the SCA system carefully. This I managed to do fairly readily, with the co-operation of Iain Mackintosh of the SCA, from whom I obtained copies of the documentation and program disks. It soon became obvious that, unfortunately, things were not going to be quite as straightforward as they might have appeared. A number of special factors are incorporated which are particularly relevant to over-the-board chess. The system is event-based and the calculations performed are dependent on the class of event (being different for each). Modifiers are used in all calculations to take account of junior additions, grading differences over 400 points, retrospective adjustments for large grading differences, and correction for drift. Needless to say, there is no provision for a player having several games in progress simultaneously and each with a different grade in effect. In over-the-board chess (and the grading system thereof) everything is "current" - there just isn't a long time span from start to finish of a game/event to cater for! I came to the conclusion, therefore, that it might not be impossible to adapt the SCA system for use by the SCCA, but I was uncertain as to whether it would be wise or advisable to do so.

An alternative needed to be investigated, at least for comparative purposes. I turned, therefore, to a system worked on since 1976, recently adopted by the International Correspondence Chess Federation, and the administrative rules of which were readily available.

The ICCF system operates as follows:-

- the Rating Period is from January 1st to December 31st each year. All games ending within a rating period are rateable for the next list.
- the new or revised ratings are published (dated July 1st each year) in a Rating List. The effective period for a rating list is one year. The list is applicable to all events/games begun between July 1st and June 30th (ie. the 12 months succeeding the publication of the list).
- there is no minimum (or maximum) number of games which must be completed during a rating period.
- a player new to the list shall only have his rating published if it is based on a minimum of 24 games.
- a Provisional Rating is given to any player who has not yet played 30 games (against graded/provisionally graded players), and all the games are used to calculate his grade until such time as he has exceeded 30 games before the start of a new rating period.
- a New Rating (for an already graded player) is based on his most recently published rating, being modified according to the sum of the rating changes in all his games ending during a rating period.
- stabilising factors are used in the system to accommodate (a) differences in playing strength over the whole range of grades; (b) variations in the total number of rated games played by different people; (c) scores significantly different from those expected; (d) players who have played less than 31 games; (e) inactivity for 6 years or more.

The following is a schematic representation of the system and the timetable of events affecting its operation:

Thus, this sytem results in the following dilemma:-

eg. a player could be asked on 1 Sept 1987, prior to starting a new game or event, "What is your grade?", and he would answer "1234", this being the grade published in the rating list dated 1/7/87. He may, however, still have games unfinished in an event which began in November 1985 in which his grade is recorded as that from the rating list dated 1/7/85. He may even be playing other games with a grade from rating list of 1/7/86!! overcome, however, as it is the changes in rating which are significant during a rating period. The most recently calculated rating is then used as the base from which to calculate the new grading for the next rating list. Thus, the system accommodates the extended timescale inherent in correspondence chess. Indeed, rapid or wildly fluctuating changes in a player's rating are tempered by the long timespans involved in postal chess. This is not the case in over-the-board chess where special steps have to be taken to cater for such changes.

At a meeting of the Executive Committee on 30th August 1987, further lengthy discussion took place on these matters. It was agreed that (subject to review by the Executive for the next 2-3 years) the ICCF system be adopted. One modification would be made, however, so that a player shall only have his rating published if it is based on a minimum of 8 (instead of 24) games against graded/provisionally graded players. Amendments to the SCCA Master title qualifications, although agreed in principle, would be held in abeyance.

The new SCCA Rating System will take some time to come into effective operation but inherent in the system is the need for regularising the recording of results and publication of the rating list. A results report sheet and guidance notes for controllers have been devised and these should help to standardise the necessary manual recording operations.

All SCCA organised events within Scotland (except the Openings Tournament) will be graded. Any other games will be graded subject to the following requirements: (a) the Grading Officer is notified at the start of the event, (b) the start date, opponent's name, address and grade are provided, (c) the precise date of ending of each game is notified. Recording the start and end date of each game is vital, as is the grade of an opponent at the start. The onus will be placed on you, the player, to quiz your opponent regarding his grade and its basis.

The records and new rating system calculations procedures have been programmed onto a micro-computer in a preliminary working version. This will be revised and enhanced if and when the monitoring of the new rating system is successfully completed.

You will see from the title of this article that I anticipate updates of this subject will be required. I should welcome your comments and queries, so please do feel free to put pen to paper. In future issues of the Bulletin, I shall then air your views and possibly have a question-and-answer type article of general points relating to the workings of the new SCCA Rating System.

13 fxe6 14 fxe6 Wf8

14 ... 0-0!? is worth a thought. (Games Ed - After 14 ... 0-0,15 exd? Bxd? 16 Rxb? Ng4!!).

If, however, 14 ... Nc5, then 15 Rxf6 gxf6 (Bxf6 16 Bxf6 gxf6 17 Qxd6 threatens Bh5 mate and Nd5) 16 Bh5+ Kd8 (Kf8 17 Bh6+ mates)17Bxf6 (threatening 18 Qxd6+) Bxf6 18 Qxd6+ Bd7 19 Rxb7 wins (Qc1+ 20 Nd1; Qxc3 20 Rxd7+;Nxb7 20 Qxd7 mate)

15 Rb3 Qa5?!

Probably 15 ... Qc5+ is better, but I wanted to retain the option of playing ... Qe1 mate in some lines!

16 Bh5+!

This came as a shock!

16 ... Wxh5

If 16 ... Ng6 17 Bxf6 gxf6 (Bxf6 18 Rxf6 gxf6 19 Qh6 Qc7 20 Nd5!? or 20 Bxg6+ Kd8 21 Bf5 intending Nd5 with great advantage) 18 Qh6 Rf8 (what else?) 19 Qxh7 regains the piece with advantage.

The alternative, 16 ... g6, looks fishy and leads to a pretty finale: 16 ... g6 17 Bxf6 Qc5+ (to guard d6) 18 Kh1 Bxf6 19 Rxf6 gxh5 20 Qg5 Nxe6 (trying to guard g7.

If 20 ... Ng6 21 Rxg6 etc)
21 Rxe6 Bxe6 22 Rxb7 d5
(Forced. If 22 ... Bd7 23
Nd5) 23 Qf6! does the trick,
eg. 23 ...Bf7 (to block the
second rank) 24 Qxh8+ Qf8
25 Qxe5+ Kd8 26 Qc7+ Ke8 27
Qd7 mate.

17 Bxe7 Qc5+

Acknowledging the inaccuracy on move 15, since 17 ... Kxe7 can be met by 18 Nd5+.

18 Kh1 Exe6

To guard the important black squares. 18 ... Kxe7 allows a murderous attack beginning with 19 Qg5+ : (A) 19 ... Nf6 20 Qxg7+ etc; (B) 19 ... Kxe6 20 Qf5+ Ke7 21 Nd5+ Kd8 22 Qg5+ etc; (C) 19 ... Ke8 20 Nd5 Ng6 (Nf6 21 Qxg7) 21 Rf7.

19 Hd5 Qd4!?

Designed to either deflect the white Q from the c1-h6 diagonal or the white R from the b-file and, in the event of the latter, to ease the pressure via the following mass exchanges.

20 Rd3 Qc5 21 Bxd6

Seeing that he can pick up the Q.

21 Qxd6

22 Mf6+ Mxf6 23 Rxd6 Mxe4 24 Rxe6+ Bxe6 25 Qa5!

The key move. Can White make anything of the line-up on the e-file?

25 If6

I can see no worthwhile alternative,

26 Qxe5 Kf7 27 Qc7+ Kg6 28 Qg3+

28 Qxb7 is strictly for diehards. The game now comes to an honourable conclusion.

> 28 Kf7 29 Qc7+ Kg6 30 Qg3+ Kf7

Neither side can profitably vary. A hard-fought game!

Douglas M. Bryson, 38 Duncryne Avenue, Mount Vernon, Glasgow G32 ORQ. Mark Thomas is a Velshman from Wottingham.

He enjoys reading the SCCA News Bulletin and has annotated the following excellent game against our own Brian Martin played in the Scottish Centenary Cup.

We should all be learning something about this opening, as the Scotch Four Knights was also featured in the Games Column, Bulletin No. 23.

Semi-Final of the Scottish Centenary Cup 1986-87

White: B. Martin Black: M. Thomas

Opening: Scotch Four Knights (C47)

This game was my second encounter with Brian and, as the first time he beat me without any trouble, I was looking to even the score.

18 Bb5

18 Qxb5!! 19 axb5 Rxa1

Also possible is 19 ... Nd3+ 20 Qxd3 Bxd3 21 Rxa8 Rxa8, and Black has compensation for the two pawns.

> 20 0-0 Md3 21 b6!!

The only move. Although I am material down, my advanced pawn is a real nuisance.

Exchanging rooks makes the pawn even harder to stop.

|----|-----|------|
| 24 | b7 | Rb4 |

| 26 | f3! | |

The whole black position is held together by the bishop on f5. A pawn is a small price to pay for its removal.

Brian deviates from known theory 12 Nd4 Qd6 13 Bh4 (13 Qc1 Ne4 14 c3 Bc5 15 Be3 Bb6 16 Ne2 Nc5 +, Nemet-Gligoric, Yugoslavia Ch 1962; 13 Qf3 Ne4 14 Be3 Qg6 15 h3 Bd7 +, Chigorin-Schlechter, Ostende 1907) Ne4 14 c3 Bc5 15 f3 Qh6 16 fxe4=, Nimzowich-Teichmann, Hamburg 1910.

12 Bc5 13 Md4 Qd6 14 Re1 Bg4 15 Qa4

Brian has declared his intention of playing aggressively for a win. 15 Qc2 also came into consideration at this juncture.

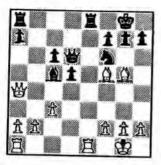

15 Bd7

Forced, but I had already prepared a counter to his next move.

16 If5?

The type of move which looks to give White a clear advantage, but again 16 Qc2 was better and then perhaps 16 ... g6 was best, both blocking the b1-h7 diagonal and protecting the square f5.

16 Bxf5! 17 Bxf5

17 Re5! 18 Rxe5

The obvious 18 Bf4? meets with a tactical refutation 18... Bxf2+! 19 Kxf2 Rxf5 +; 19 Kh1 Bxe1 20 Qd4 Rxf5 (20 ... Rae8 is also good) 21 Bxd6 Rf1+ 22 Qg1 Rxg1 23 Kxg1 Bd2 +; 19 Kf1 Bxe1 +

18 Qxe5

19 Qxc6 was a quick way to succumb. 19 ... Re8 20 Rf1 Qxf5 21 Bxf6 Qxf2+ 22 Rxf2 Re1 mate and if 20 Bd3 Ng4!

19 Re8 20 Bd3 Fe4 21 Bxe4

21 Qxf4!

22 Bxf4

The attempt to win a pawn by the zwishenzug is faulty 22 Bxh7+ Kxh7 23 Bxf4 Re2 24 b4 Bb6 and here 25 Bg3 or Be3 is necessary, proceeding into an inferior rook and pawn ending as 25 a4 Rxf2 26 a5 Ra2+ is rather awkward.

22 Rxe4 23 Bg3 Re2 24 Rb1

If 24 b4 Be7 (with the idea of Bf6) 25 Kf1 Rc2 26 Be5 (if 26 Re1 Kf8) c5 27 bxc5 Bxc5 28 Bd4 Bxd4 29 cxd4 Kf8 +.

24 f5

This move creates a flight square for the king which was in danger of back-rank mates in some of the possible ensuing variations. Also f4 and g5 are threatened, in either order.

Kf1 Rc2 Ke1 d4 cxd4 Brd4 28 Kd1 Ryh2 Rxb2 Bxb2 30 Kc2 Bd4 31 Kd3 Bb6 32 f3 Kf7 33 Be5 **g**5

35 f4 gxf4 36 Bxf4 fxg4 37 Ke4 c5 38 Bb8 c4 39 Kf4 h5 40 Kg5 Be3+ 41 Kxh5 c3 is good for Black.

> 35 fxg4 36 fxg4 Kd5 37 h3

37 Bf6 Bc7 38 Bxg5 Bxh2 or 38 h3 Bf4 39 h4 gxh4 40 Bxh4 c5 were perhaps worth consideration, but Brian considered that it was unlikely to influence the result.

37 Bd8

Night as well eliminate all counterplay.

38 Bc3 c5 0 1

Brian decided it was unnecessary to prolong the struggle. A satisfying game for me but I know I shall have a tough game on my hands when we next cross swords over the postal chess board.

The Wandering Dragons produce an amusing newsletter for their postal enthusiasts.

To the uninitiated reader, the identity of various participants is obscured by pseudonym. From what I can gather, "El Senor" is more commonly known as Neil Clapperton, while "Duffer Donkin" is a self-explanatory term for the newsletter editor, Chris Donkin.

An extract and game follow:

White: El Senor Black: Duffer Donkin

Opening: Sicilian Dragon (B76)

The notes are by El Senor Clappertoni and the only thing I wish to add is that my book (Sicilian Dragon - Yugoslav Attack by Wiles & Moskow) does not give Weil's excellent 11th move Be2! so after that I was on my own.

1 e4 c5 2 lf3 d6 3 d4 cxd4 4 lxd4 lf6 5 lc3 g6

For a while this was Karpov's favourite weapon against the Dragon.

9 e6!?

Popularised by Tony Miles, this was considered to be the main line in this variation in the early eighties.

> 10 0-0-0 d5 11 Be2! Re8

At first I thought this was a TN but I discovered from a copy of Informator that it had in fact been played in a game between two IMs in 1984.

12 Ib3 dxe4?

This is a TN but it is not a particularly good move. The IN in the "Informator" game played Na5 and in fact got quite a good position.

13 Qe1 Qc7 14 f4 e5?!

A brave try to gain some space.

15 f5

The position dictates it. Sac, sac and sac again.

15 gxf5 16 ¥b5 Qb8 17 Bc5

Threatening to win the queen.

17 Bf8

Just as bad was b6 when 18 Bd6 Qb7 19 Nc7 wins the exchange and still keeps up the relentless pressure.

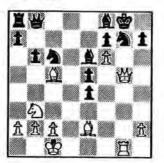

> 18 Md6 Rd8 19 Qh4 Me8

It's mayhem!!

20 Qg5+ Ig7 21 gxf5 Rxd6 22 f6 Rxd1+ 23 Rxd1 Be6

Bf5 loses a piece but offers Black the chance to last longer.

24 Rg1 b6

25 Bxf8 Qxf8

(Games Ed - 25 Qh6 with mate in 3, saves stamps!)

26 Qh5!

Better than Qh6 which allows Black to play Bf5!

Qb4 Rxg7 Kf8 Rxh7 Ke8 Rh8+ Kd7 30 Rxa8 0e1+ 31 Bd1 e3 32 0e2 Qg1 33 h4

Although Chris played on for another couple of months hoping for the inevitable Clapperton blunder, there was no way the extra rook was going to be insufficient to decide the game.

There must be hundreds of postal games played by Scottish players each year.

INTERNATIONAL REPORT

(by Philip Giulian)

Our first entries into the Correspondence Olympiads and European Team Championships are now almost over, with only a few games remaining in the "European", and these are due to finish at the end of December. I feel we can look back at our first attempts with some satisfaction. We didn't qualify for the final stages of either event, but we gave a good account of ourselves. Hopefully, we will have benefited from the experience and will do better next time. The draw for the next Olympiad has been made and Scotland are in the same section as Belgium, Norway, Czechoslovakia, Finland, Hungary, Portugal, Singapore, Brazil and Argentina. Only two teams qualify for the final stages and, as expected, the opposition is very tough with Czechoslovakia, Argentina, Finland and Hungary having teams with average ratings over 2400.

Scotland continue to do well in the North Atlantic Team Tournament, thanks mainly to the superb results from Graham Morrison, Alan Norris and Stephen Mannion. The rest of the team are still playing and with a few more good results, we could yet win the event.

There is little to report on the Ladies Olympiad, with very few games completed.

On the individual front, Douglas Bryson has at last learned the names of the opposition he faces in the World 3/4 Final. The average gradings of his opponents is just under 2500, but Douglas is the third-rated player in the section and, with a bit of luck, could become the first Scot to play in the World Correspondence Championship Final. We wish him well. Alan Borwell has almost finished his World Semi-Final Section in which he expects to score just under 50%. So far, in my World Semi-Final, I have scored 5½/8.

I have arranged a friendly international with Australia, due to start in March. Despite being so far apart, post between the countries is fairly quick.

Alan Borwell tried to arrange other friendly Internationals while he was at the ICCF Congress, but so far we have not yet completed any definite arrangements for new matches. In the meantime, I would be interested to hear of any country you would particularly like to play against.

Shown below are recently advised results of games finished in our friendly internationals. I strongly suspect that there are many results which I do not have, and if you have finished games not yet reported, I would be grateful if you could inform me of the outcome.

It is only since I took over the post of International Secretary that I have realised the volume of work involved. Of course, I am happy to do most of it, but I am afraid that a lot of my time has been taken up by "silent withdrawals" - people who stop playing without informing anybody. So if, for any reason, you are unable to continue your games, please inform your opponent and me that you are resigning. If we make the effort to arrange matches for those who are interested, surely it is reasonable for the International Secretary to be advised of results as soon as games are completed.

ICCF INDIVIDUAL

TOURNAMENTS (by Alan Borwell)

Members of the Scottish Correspondence Chess Association are eligible to compete in ICCF promotion tournaments, which are structured to encourage participation by C.C. players of all standards. You can choose between World or European-only sections ranging upwards from third class, second class to first class. Higher Class and Master Class events require evidence of C.C. playing strength with entries.

Tournaments are organised in 7 or 15 player sections, except World III Class which is 7-player only. They begin as soon (in theory) as entries have been received from seven different countries. Sometimes, in practice, there are two players from the same country, particularly from USSR or DDR. After you have selected a Class, you need to win a Section to be promoted and to score more than onethird of the points to avoid relegation!

The entry fee of £3.50 (for 7-player groups) or £4.50 (for 15-player groups) should be made payable to BPCF and sent to Mr. Michael Anderson, 3 Vinterfield Gardens, Duns, Berwickshire, TD11 3EZ.

A COSTLY BUSINESS?

The following response was received after publication of the letters on page 38 of our last issue

"I am sorry to relate to this subject again but the article in SCCA News Bulletin No. 24 does seem to beg a response from me.

Innocent fellow member "Mr." may feel a degree of embarrassment. Please accept my sincere apology, sir.

The possibility of future victims and the image of the SCCA were the factors which caused me to put pen to paper. I thereby do not seek reimbursement and wish to preserve the existing anonymity.

My friendship with "Mr." is truly undecayed."

(Here endeth this anonymous correspondence! - Editor)

Overseas Subscribers

Subscription for one year's editions of the Scottish CCA News Bulletin can be obtained from the Editor for £5pa (inclusive of postage).

One of our lady members, Muriel Leask, expresses the view:

"Regarding your comments in the News Bulletin - I would think it best if Openings Tournaments were to remain ungraded - it allows for more experimentation, without the worry of the results!"

One of Nuriel's games from a recent Openings Tournament appeared on page 32 of News Bulletin No. 24.

1987 Grading List Corrections

It's unwise to pay too much but it's unwise

but it's unwise
to pay too little.
If you deal with
the lowest bidder,
it's well to add
something for
the risk you run.
And if you do that,
you will have
enough to pay for
something better.
